FYI: Hair prep tips

*Pictures are always helpful. Be sure to bring along photos that you like and do not like so we can pick a style that suits your own tastes, as well as what works with your hair texture, color, density, length, etc. If your hair doesn't hold a curl, please consider a style that best suits your own hair type.

*Extensions are always recommended(real hair, not synthetic). If you're using brand new extensions, be sure to wash and dry them before the first use. This will help your style hold longer. Do not use any oils or serums, and be sure **not** to flat iron them before use (this will also make your curls fall faster)

*Oily/greasy hair is extremely hard to curl, style, tease, form, etc. Clean hair is preferred, however if you truly prefer dirtier hair, please be sure it is NO MORE than 1 day dirty. Also, please don't put any product in your hair beforehand other than mousse prior to blowdrying
